Georgia AHPERD

Legislative Handbook

2015-2021

Updated March 2021

Message from Executive Director Kim Thompson

Hello Everyone,

If you are reading this hopefully it is an indication that you plan to become more involved in the battle to improve the lives of Georgia's children. Personally, I do not believe that there is any greater calling than helping out our kids! It is an exciting time to be involved in physical education in our state. Things seem to be rolling along in a favorable fashion but I challenge you to take this opportunity to contact your legislators and let them know that you support quality physical education, mandated minutes for all grades, the re-installment of our middle school requirements, no substitutions for high school physical education, fitness testing and reporting and any/all issues that you can speak to about making our schools and programs stronger. The lawmakers like to hear from you when you don't have complaints! Speaking with them now (via phone, fax, or email) will go a long way toward having them listen to you later, when there is a problem! In the event that we need to contact our legislators in a very timely manner, for example when legislation to end Fitness gram or any other important component in health and physical education that could have negative effects to our profession pops up suddenly, I hope that you will use this handbook as a resource to get in touch with your legislators. We need to be able to express our support for our profession and programs quickly and this handbook allows us to be able to do just that.

Our goal at GAHPERD is to represent you, inform you and make it easy for you push buttons and become more involved. We need you, now, more than ever, to stand with us as we unite in a strong voice to support our profession. Thank you for all that you are doing for the children of Georgia. Please continue to present quality physical education programs in the schools, support any and all legislative efforts at home and in Washington. Keep your students and their parents informed through correspondence from school. Together, we can become stronger and better!

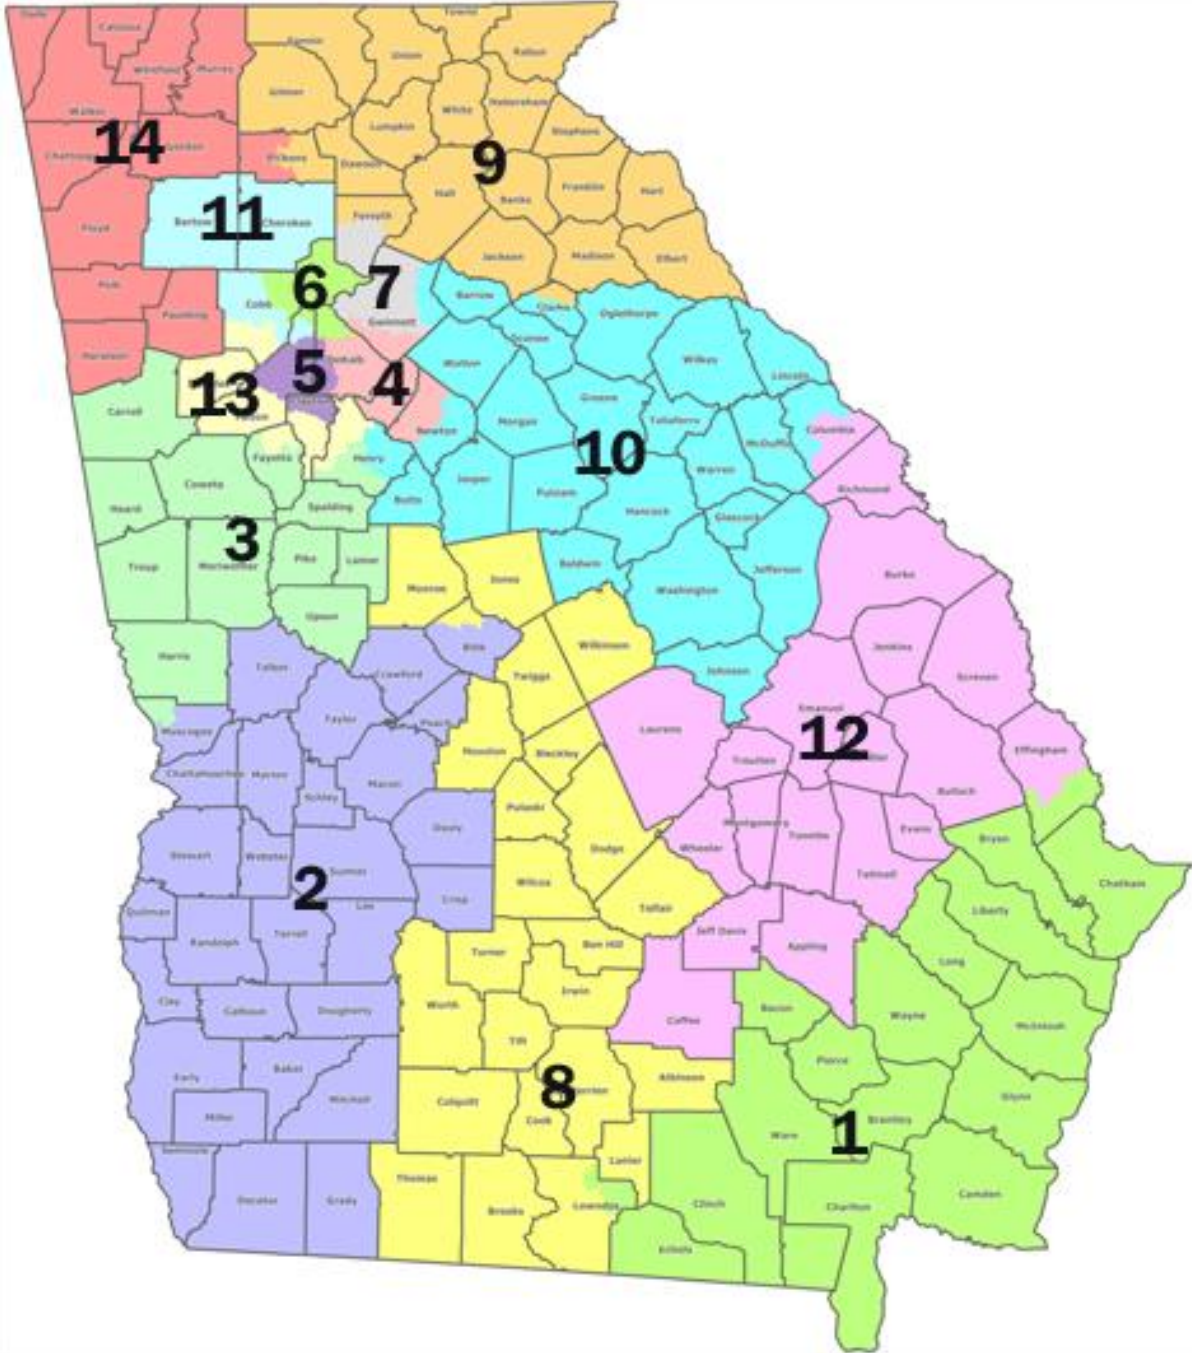

Yours in Physical Education,
Kim

Tips to consider when contacting your policymaker

In Writing

- ✚ Be friendly: Get to know your policymaker. Try to maintain contact throughout the year.
- ✚ Be courteous: Do not threaten or try to coerce. Put yourself in their place to try to understand his/her problems, outlooks and aims.
- ✚ Be accurate and factual: You can establish trust and credibility with the correct facts.
- ✚ Personal emails are the best: Limit the email to 500 words. Include personal stories that relate to your policymaker's state or district.
- ✚ Thank you's: The importance of a thank you cannot be overemphasized.

On the Phone

- Identify yourself first.
- Be brief.
- If referring to legislation, be specific about bill numbers whenever possible; however, do explain what the bill is.
- Explain why you support or oppose the bill.
- Ask the legislator what their position is on the legislation.

In Person

- Make an Appointment and be on time - Legislators' schedules can be very hectic and very tight. Respect their time, and they will respect your position.
- Be Prepared, Do your homework - Know the points you want to cover. Anticipate questions your legislator might have and craft responses ahead of time.

- Introduce Yourself - Every time you make contact with your legislator and his or her staff, clearly state your name and who you represent.
- Get to the Point - Be concise, specific, and clear. After making introductions, refer to the purpose of your visit. If you're asking your legislator to take a specific action on a specific issue at a specific time, give him or her all the details.
- Localize the Issue - Let your legislator know how your issue or proposal is affecting the daily lives of his or her constituents.
- Acknowledge the Opposition - If you know of opposition to your proposal, let your legislator know about it. Always regard and respect your opponents. Don't denigrate the other side, but instead be prepared to honestly articulate a response. This will illustrate your depth of understanding, and may neutralize your opponent's influence.
- Hand Out a Position Paper - If needed, reinforce your position with a succinct, one-page position paper.
- Close the Deal - Ask your legislator if you can count on his or her support.
- Get a Name - After you've made your case, ask with whom on the legislator's staff you should follow up promptly.

Timeline when calling your policymaker

Be specific and make the most of your call with your policymaker

0-2 mins.

Introductions

- **Identify yourself**

2-3 mins.

Message

- **Deliver four clear points**
